B.A. IN PSYCHOLOGY ONLINE

B.A. IN PSYCHOLOGY
Explore the science of human behavior and development and its relevance in today's diverse society with an online Bachelor of Arts (B.A.) in Psychology. Whether your interests lie in community and social work or human resources and workplace psychology, immerse yourself in a real-world curriculum that offers practical strategies that you can apply immediately to help people improve their learning, performance, and overall well-being.

NHU's signature multicultural perspective is interwoven throughout the program. With special emphasis on Hispanic/Latino populations, the program provides an opportunity to study the unique psychological dynamics of different cultures in order to better understand and serve a wide variety of communities.

CONCENTRATIONS
Choose the concentration that best meets your personal and professional goals:

Community Psychology
Help and empower people—and entire communities—by gaining a stronger understanding of the social and community dynamics of human behavior. From violence and substance abuse to chronic and mental illnesses, the Community Psychology concentration explores research and community intervention strategies you can use to address real-world issues relevant to today's diverse, multicultural populations. Learn how to collaborate with community agencies, nonprofit groups, and grassroots organizations to foster community engagement and promote positive change. Employ participatory action research (PAR) to develop a framework for addressing a real-world issue relevant to your own community.

Organizational Psychology
Put your knowledge of psychology to work. The Organizational Psychology concentration explores the behavior of individuals and groups in businesses and organizations to determine how to optimize performance and human potential in the workplace. From addressing complex issues such as workplace diversity and anti-discrimination policies to motivating employees and enhancing the quality of work environments, learn how to apply psychology principles and research to create practical solutions that address common human resource and leadership challenges.

THE BENEFITS OF LEARNING ONLINE
Taught entirely in English, the B.A. in Psychology program’s interactive learning environment features:

- An accessible, knowledgeable faculty trained to facilitate engaging, meaningful online learning experiences.
- A flexible online learning model designed to fit your busy schedule, which means you can participate in classes on a weekly basis whenever it’s convenient for you.
- A dynamic, high-quality curriculum.
- Interactive features and multimedia elements that bring course content to life.
- Resources and forums that allow you to learn from and support your fellow students.

ELECTIVE CREDITS AND TRANSFER OPTIONS
Customize your program with the choice of 21 elective credits that will let you focus your studies on your specific interests, as well as transfer of credit options that can shorten your time to completion.
Graduates of NHU’s B.A. in Psychology program will have an excellent foundation of knowledge that will lead to positions in the fields of mental health, social services, or human resources—practically any field where people are the focus.

- Dr. Gladys Ato, Provost of The National Hispanic University

COMPLETION REQUIREMENTS

You will complete 121 semester units in the B.A. in Psychology program, including 49 units of general education courses, 51 units of psychology courses and 21 units of electives.

TUITION

NHU’s tuition and fees are comparable to those of other accredited universities. For more information, please call an enrollment advisor at 1-877-584-6648.

ABOUT THE NATIONAL HISPANIC UNIVERSITY

The National Hispanic University, an accredited institution, was founded in 1981 to create educational opportunities for Hispanics and others serving multicultural communities. NHU offers campus-based and online undergraduate, graduate, and certificate programs in business administration, child development, computer information systems, criminal justice, mathematics and science, psychology, teacher education, and translation and interpretation. NHU’s goal is to help every student graduate and realize his or her full potential. NHU promotes a caring learning environment that fosters a personalized and accessible approach based on mutual respect.
